New York, June 16 .- In inquiry for ex-amination of sutumn fabrics there has been a large improvement, and though selections have followed a majority of buyers have purchased with a view to early ship-ments. The business completed has been of increased proportions, with all classes of fabrics included. There is better feeling prevailing, and the close of the week indicates a large movement, as large as outline closing weeks for mouths. LOUISVILLE TOBACCO MARKET. LOUISVILLE, June 16 .- In the leaf tobacc

trade while the receipts have fallen off to a low figure sales have been kept up to the usual amount for this time of year. A few more of such weeks will about use up the stock of unsold tobacco in the market, when the contemplated holiday will begin. Prices have ruled more steady, closing to-day as have ruled more steady, closing to-day as quoted the past two weeks. The only feature of the week was a special sale at one of the warehouses of dark tobacco. One hundred and twenty-five hogsheads were inspected and sold. The highest price obtained was 13½c for one hogshead from Barren county. This, with possibly twenty others classed as fine, the balance are about as seen on the breaks every day. Modification of Circular No. 57. WASHINGTON, June 14.—The following reular was to-day issued by the secretary of treasury in regard to the use o ous oils on passenger steamers. It takes the place of circular No 57, concerning which there has been so much discussion of late, and modifies it slightly. This change was made to meet the case of the representatives of various steamboat lines, who maintaine that certain oil used by them—name—, mineral sperm oil," although a product of petroleum, was neither crude nor refined pe roleum within the meaning of the statute prohibiting the use of dangerous oils, the product of petroleum. The circular simply eaves the matter where it will rest with the napectors in each case to decide whether used falls within the class pr TREASURY DEPARTMENT, WASHINGTON, D. C., June 12, 1882.
